

Lightweight Energy and Noise Absorbing Foams

Nanovate™

Lightweight and tough,
our bio-inspired metal foams
offer exceptional energy
and noise absorption

THE NEXT GENERATION OF HIGH PERFORMANCE MATERIALS

High Strength

- ▶ Nanovate™ foams show exceptional compressive strength compared to the competition

Features and Benefits

- ▶ Nanovate™ metals have demonstrated excellent high strain performance
- ▶ Thickness, density and structure can be optimized for your application
- ▶ Foam panels can be cut and formed to your specifications
- ▶ The unique cellular structure provides a durable visual accent with excellent ventilation, light transmission and noise attenuation properties

Available As...

Flat Panels

Formed Panels

Applications for Nanovate™ Foams

Vehicle Armor Energy Absorption

Noise Attenuation

Body Armor Energy Absorption

Architectural Accents
